

SPEECH

The miracle is happening

Dear people of Germany!
The first few days of January brought us the miracle:

*The blind become sighted,
the lame become able to walk.*

The world is broken and *must* be saved.

Dear farmers, dear craftsmen, dear lorry drivers,
dear actives, dear families,
dear children, dear people who support the processes with sympathy,
dear people:

Yes, the fraud against the farmers and the people was planned.
Agriculture, too, has been completely eaten away by the system of corruption and evil, and
this must be disposed of,

BUT: You humans have risen above it
and you are the ones who have performed *the miracle of Germany*.

You have done it! The people are united for the first time!

United with yourself!

United with the ancestors!

United across divides!

And you, farmers, craftsmen, families, were the last, the only ones,
who were able to achieve this
with your deep and life-affirming connection
with this country and this earth!

With your joyful and so resourceful and intelligent power!

Dear farmers and dear people!

You are going down in history!

Each and every individual is now making history!

Don't let anyone tell you otherwise! Stay on the line! Put foot in front of foot!

Salvation / the *Heil(l)and* ("*healing-land*"), it is written, will save the world, save the country.

He doesn't come as Superman on a white little horse.

It's you who make it possible,

You heal the land and will heal it!

You stood and still stand today in front of the *Brandenburg Gate*, and there,
under the four horses of the *Quadriga*,
is officially a small patch of earth
that no one has touched,
no occupying power dared to take,
it is the last square metres of Prussia.

There you have re-established the covenant between the people and their King,
who in this case only comes to finally set this long tormented and maltreated people
free in love,
not with the sword, but with the pen.

In this optimal case, the people and the King swing into each other,
like the two loops of a horizontal eight, like a zero that has begun to vibrate

and releases its infinite potential.

Thanks to me, Prussia is restored and able to act.
But it's not just about Prussia, it's about Germany,
the right of every nation to its own language and culture,
in peace and friendship with all peoples who are willing to do so.

There are no NGOs in Prussia, so neither a WHO, UN, GAVI, nor an EU, NATO, a WEF, ...
and thus not in Germany, which is under the Sovereignty of the King of Prussia as a result of the
November Treaties of 1870.

It is now not all Prussia, but all Germany, whose name and concept emerged historically at an early stage and was
also understood under this name in the great era of cultural excellence.

The individual in his and her great power of creation and action, wisdom and love will decide.
Prussia is merely the emergency anchor given to us by Providence, through the course of history, as the last
guarantor of freedom, as the only way to escape the legal entanglement of evil, which for centuries worked
through the Vatican, in malicious deception of believing people.

With a single stroke of the pen and the right deeds, it was possible,
to free the lands/countries at the level of the highest law on Earth
from the tentacles of evil piracy,
which is already done with the *NEW AUREA BULLA of RELEASE* on 7th August 2021 and the *BULLA of EARTH*, as
well as the *TESTAMENT* on 3rd December 2022.

With these two works of law of the highest legal level on Earth, the two *BULLAE* mentioned,
the foundation is laid on which people can build for eternity.

People should shape the precise and pragmatic form themselves, find it themselves,
find *themselves*.

The individual right of resistance is secured therein.

A new chapter in world history begins without anyone sitting there telling you what to do and what not to do,
what you must and must not do.

You should create this for yourselves
and really build something good for future generations.

People are now beginning to *see* through the truth, they are becoming *sighted*. And the awareness that arises
from this gives rise to a different perspective, a different point of view, a different feeling.

They come to the realisation that they have been lied to.

As a result of this whole perception, people are now beginning to fight back and go into opposition,
and no longer simply accept injustice.

The lame have become able to walk. This feeling of no longer accepting anything, this feeling of getting up
makes people stand up, who sat there, in slavery, as serfs or merchandise.

They let everything happen to them and didn't move.

But now they have got up and are no longer putting up with it.

Now there is movement, they put one foot in front of the other,
even if not everyone yet understands how everything is anchored, interwoven, intertwined, hidden, camouflaged
and networked in this system,

via labour unions, federations, clubs, political parties, ...

They begin to realise that this was the milking machine that sucked the people dry
and which these people themselves maintained and fed with their own levies, taxes, fees, etc.

So now the world will be saved by all, those who have seen and become active, even if they still stumble at the
beginning. Now comes their own responsibility for their own sovereign actions.

You people in Germany!
Step forward into unification and plant in the centre of your circle
the tree of the miracle,
of life, of growing, blossoming and flourishing.
Now the familiar line (*of the national anthem*) takes on a whole new meaning:
Blossom in the splendour of this happiness.

Sincerely
yours
Stefan Ratzeburg
