

### I ACCUSE!

Before all peoples and before the whole world, according to the will of the Creator with the highest authority on Earth as representative of the Creator, the Original Source of all Life, and by His grace:

We accuse/charge:

- All the causers, the accomplices, the perpetrators of the murder of mankind of the gigantic murder of humanity, of the mutilation of humanity
- All who contributed to/participated in these crimes against their better knowledge
- All those who condoned the consequences of their own actions and their participation in these crimes, etc.
- All those who knowingly and with harmful intent against people have hidden, concealed the true conditions on Earth and twisted true statements about them into lies and falsehoods
- All those who have murdered, knowingly harmed, obstructed or defamed those seeking the truth
- All those who knowingly prevented or hindered the saving forces in their work
- All those who knowingly harmed people in their self-protection, self-healing, defence forces, self-empowerment, or in their own thinking, feeling, and acting
- All those who knowingly made impossible or damaged the memory of the ancestors and their honour, as well as their commemoration.

They will all receive their just punishment.

There will be a new jurisdiction because the previous one has been severely damaged.

There will be a new judgment, the Last Judgment.

There must be no silence about these crimes.

There will be no amnesty for the criminals.

Only with the truth will we reach the good future.

This winter solstice of the year 2022 is the turning point into justice and into truth for the humanity of the whole Earth, the turn of history.

Stefan Ratzeburg,  
according to the will of the Creator last rightful King of Prussia  
and all associated territories,  
r e x m a x i m u s .

WINTER SOLSTICE 2022

*I thank all the people who so bravely fight for the  
freedom and truth and humanity  
and wish you all happy holidays  
and that you may have a good start into the new year.*

*Your Stefan Ratzeburg*

Winter Solstice 2022
